

Interactive Nature Conservation Museum

Objectives:

- In a community that values hunting as an enjoyable and important social activity, raise awareness of animal conservation.
- In a community that does believe in climate change, make audiences aware of the connection between climate change and animal conservation.
- Become a hub for dialogue about hunting, climate change and animal conservation.
- Create an atmosphere that is welcoming to both local visitors and tourists.

Audience Segments:

1. Hunters
2. Lovers of the Outdoors
3. Dislike the Outdoors
4. Climate Activists

Customer Journey Map

Visitor Moments

Hunters

- 1. Considers this exhibition a waste of space.
- 2. Thinks a day could be well spent hunting or at the movies.
- 3. Visits with friends but not self led, gets bored easily.

Lovers of the Outdoors (Non hunters)

- 1. Considers this exhibition quite informative and interesting.
- 2. Believe the exhibits could be more hybrid, closer to nature. Maybe Outdoors.
- 3. Likes the final few exhibits which are outside and have no roof.
- 4. Brings in the family and kids along for a day out.

Dislike the Outdoors

- 1. Likes the digital parts of the space, Likes technology and interaction.
- 2. Gets bored easily as it's a younger audience.
- 3. Believes in the idea of conservation somewhat.

Climate Activists

- 1. Considers Climate Action, Conservation and sustainable thinking Important.
- 2. Excited to bring friends and speak about the experience and its importance.
- 3. Wants to get involved in the whole idea of conservation and spreading awareness.
- 4. Does not like the government and its policies.
